Russia's war of aggression in Ukraine has been going on for more than half a year. No one can say when it will end. But we must be prepared for the time after the war. You can start now to develop your own practical ideas for the time after the war in Ukraine.

In this workshop series, you will develop your visions for peaceful coexistence with and within Ukraine. To achieve this goal, you will work out practical steps for action. We will support you by introducing various concepts and practical methods for shaping far-reaching change processes in crisis areas. In the workshop, you will apply this knowledge to further develop steps for action. At a final event, you get the opportunity to present your plans to an audience of relevant experts and possibly you find partners for the realisation of your visions for the future.
